

Introduction to ***Letex*** company & product
Technology Corp.

Profile

Since: 2001

Obtained ISO 9001:2015 Quality
Management System Certification

Passed UL certification and officially began
mass production

Passed CUL certification, RoHS compliant,
halogen-free

Letex Technology Corporation

NO.25,Sec.3,Xibin Road,Longjing Dist.,Taichung City,Taiwan

Tel. +886-4-2630-7366

Fax. +886-4-2630-7367

Products

PHOTO MOS Relay

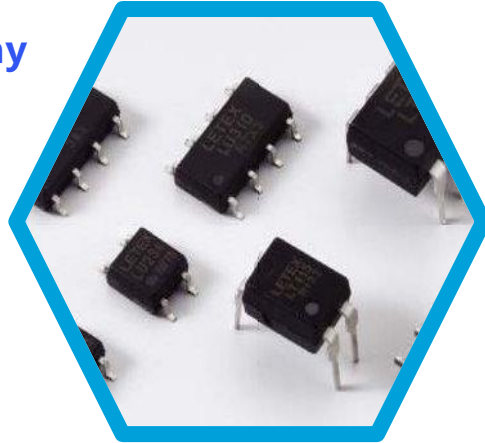

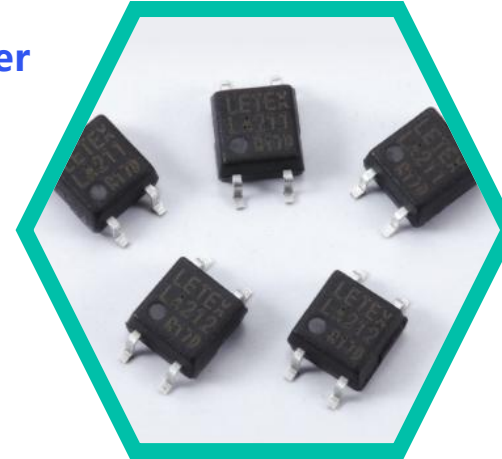

PHOTO Coupler

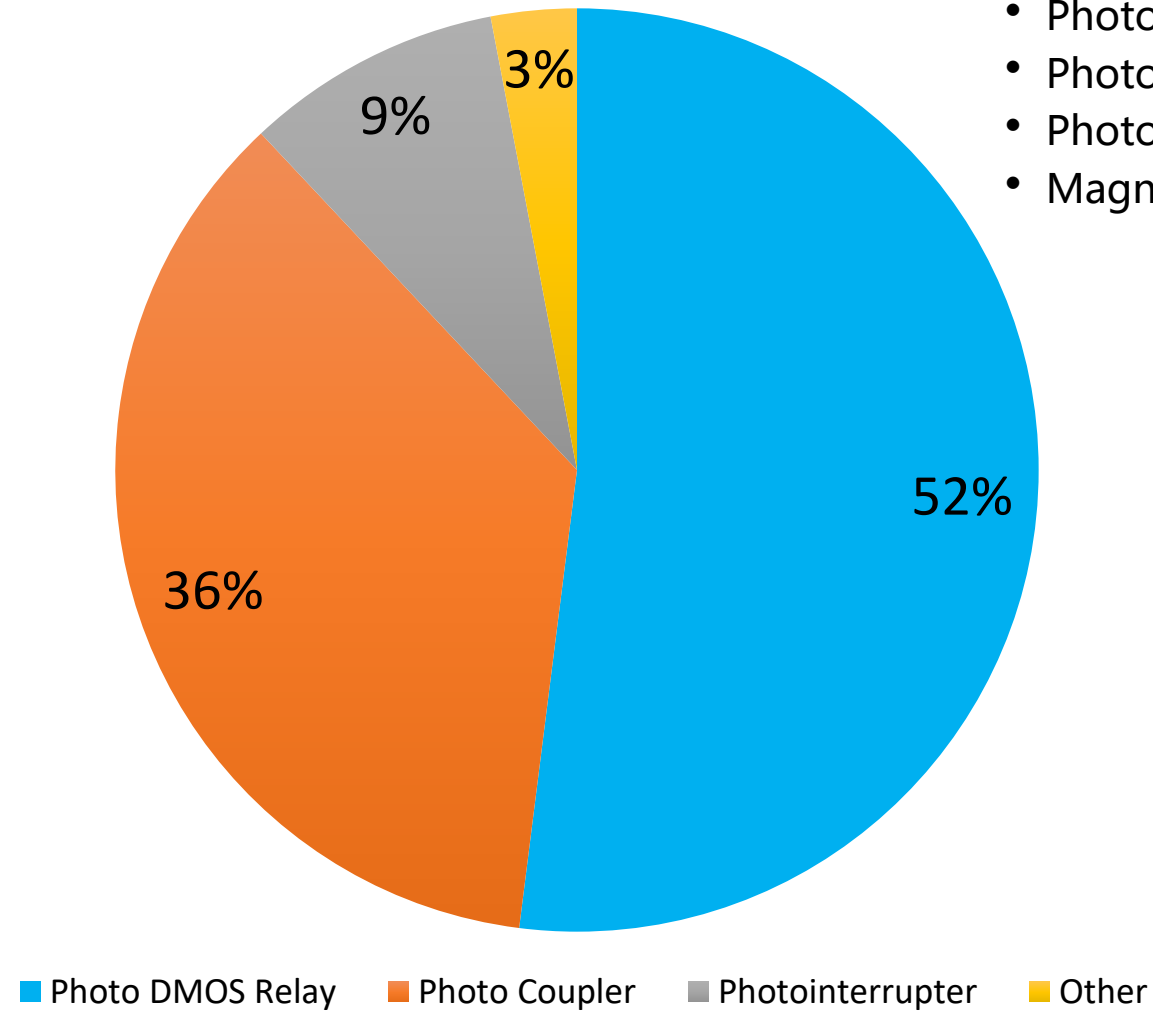

Photointerrupter

Magnetic Contact

Capacity

- Photo DMOS Relay : 6.6KK pcs / month
- Photo Coupler : 500K pcs/ month
- Photo Interrupter :300K pcs / month
- Magnetic :180K pcs / month

Photo DMOS Relay

光電繼電器

Photo MOS Relay can be used on both of AC and DC. It is a high reliable product with special features such limited permanency, low driver current, high isolation voltage, subminiature, light transmission, none mechanical contact....etc.

- I/O expansion card
- I/O mechanic control
- Access controller
- DAQ
- Remote I/O Module
- Infrared Detector (PIR)
- Camera
- Centrifuge

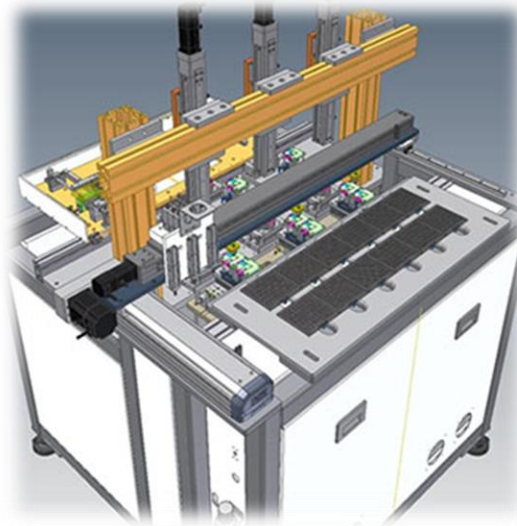

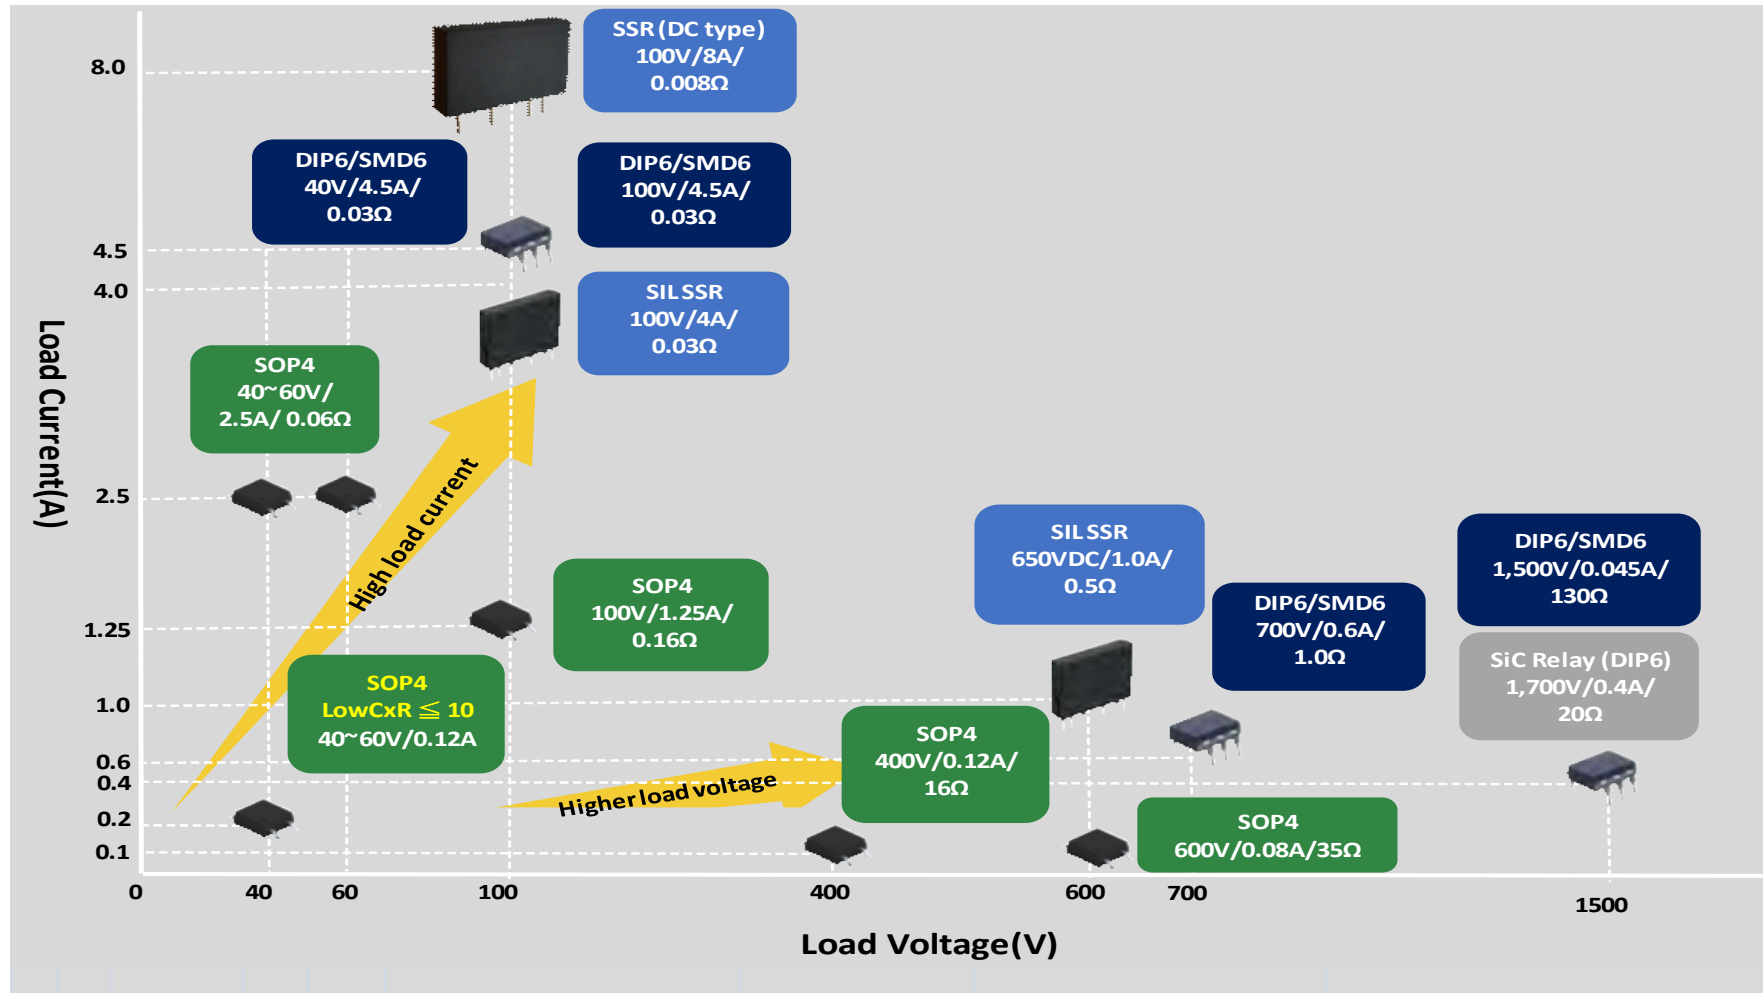

Photo Relay Road Map

Photocoupler 光藕合器

- The Photo Coupler is consisted of one couple of emission and receiving elements. It makes use of light to transmit signals, and then makes electrical insulation between input and output.

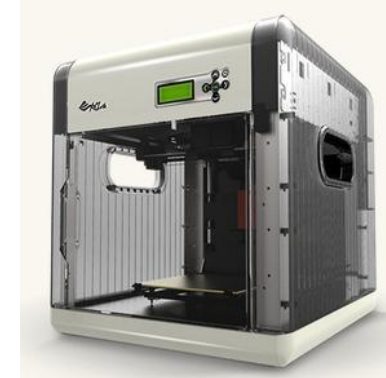

- Telephones/Fax machines
- Power switches / UPS
- Printers / Copy machines
- Household appliances
- Tunnel light
- I/O mechanical controller
- Elevator control
- Signal detector
- Card Reader

Photointerrupter 光遮斷器

- Copier
- Printer
- Home appliances
- Digital camera
- Coin machine
- CD-ROM drive
- Non-contact type switch
- Industrial position switch

- No-contact precision testing Device

Magnetic Contact

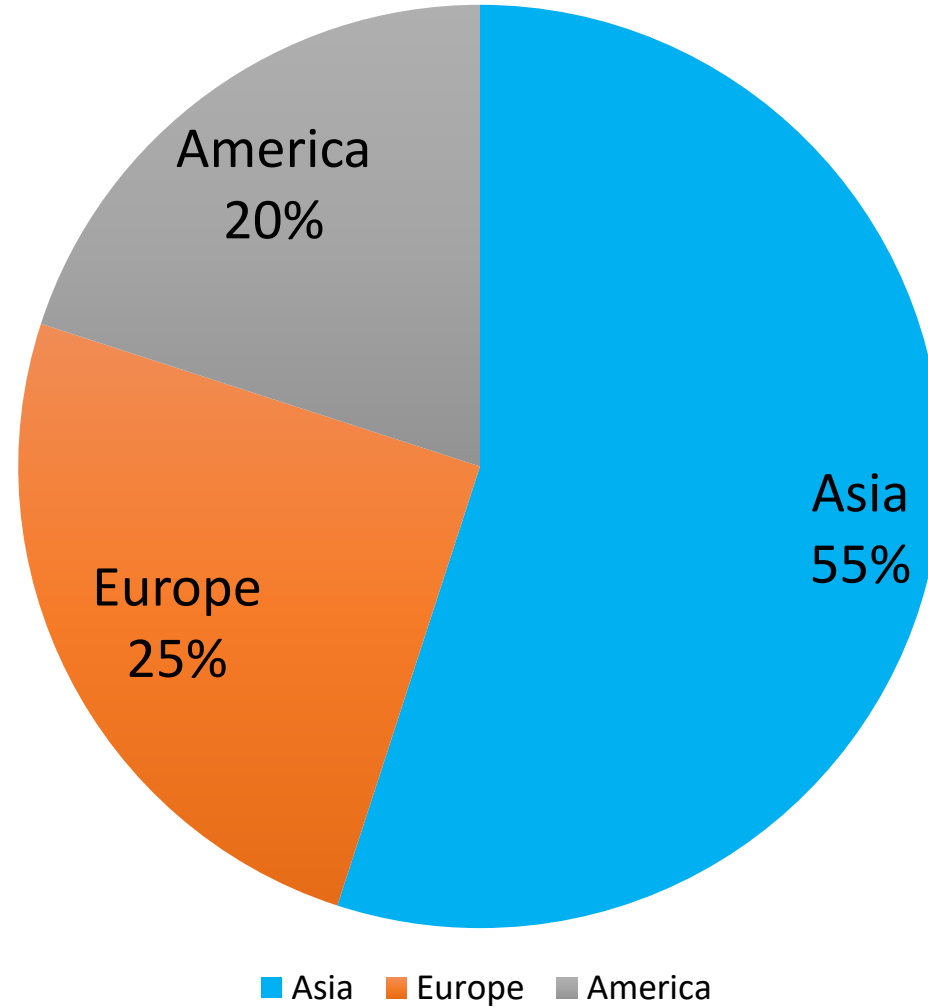

磁簧開關

- To use a reed switch and magnet moving for interaction device.

- Industrial equipment
- Motor vehicles
- Large appliances
- Anti-theft doors and windows
- Machine safety devices
- Access control security equipment
- Lighting device
- Communications equipment industry

Overseas Market

Products Roadmap

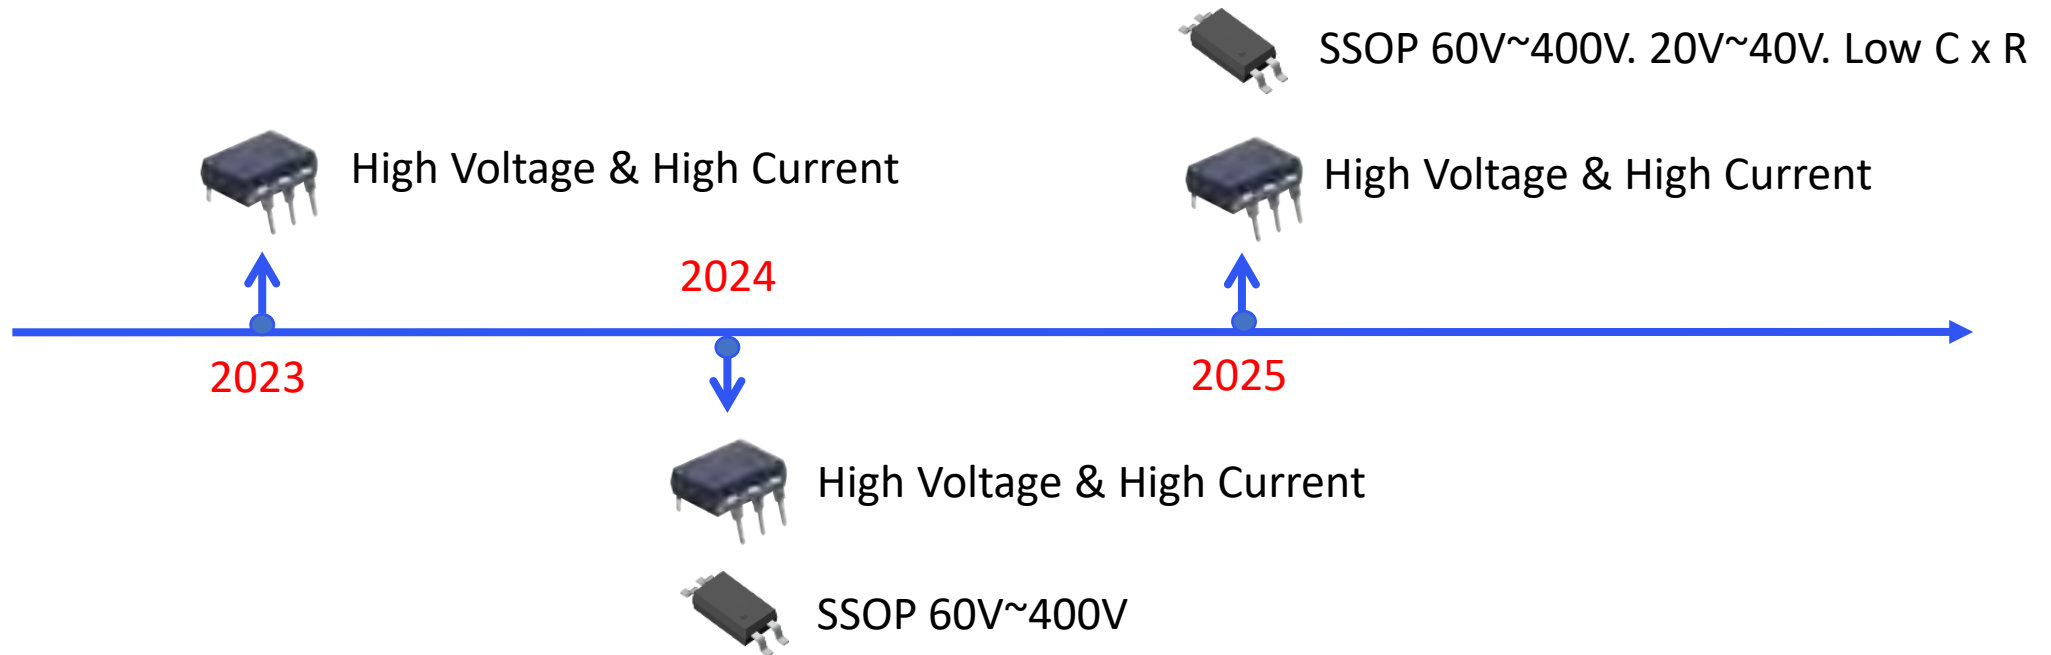

Photo MOS Relay application

1. 高壓規格(High Voltage)

2. 高耐流規格(High Current)

3. 通信信號規格(Communications Signal)
